FOREWORD

This Supplement to the Index of Artists brings under one alphabet a biographical record of the artists of all countries not included in the 1935 Index of Artists. It contains the basic data as to each artist and provides a key to the most authoritative sources of further information.

The Index is intended for use in libraries and museums and by students, art dealers and collectors and should supply first aid in the search for biographical material.

The list covers the artists whose works are exhibited in leading galleries or inquired about by modern students, and, in checking the dates and biographical facts, the author has had the cooperation of museums, galleries and collectors. The catalogs and card indexes of museums and of the latest gallery exhibits have been a valuable source for names and facts.

The index gives the artist's full name, pseudonym, pre-marriage name in the case of women, nationality, place and year of birth and death [or active years] and place of residence.

By a system of key letters and numbers the reader is guided to more extended courses of biographical information. The key letters A to Z refer to material in standard reference books commonly found on the shelves of all libraries (see Sources of Biographical Information: I), and the key numbers 1 to 903 refer to Museums, Art Galleries, Libraries, Colleges, Publishers, etc. from whom data may be obtained upon request (see Sources of Biographical Information: II).

Several thousand names are included in the Index which have never before been listed in any previous reference work on art and artists. The Necrology will be found at the end of the volume.

Especial effort has been made to make the lists of American artists complete and up-to-date. For artists not listed in this Supplement, consult the 1935 edition of Mallett's Index of Artists.

The author owes a debt of gratitude to the many museums, libraries and galleries; and to the large number of individuals who have so willingly assisted him in the preparation of this volume and have helped in making more complete the listings in the Index. To all of these he wishes to express his fullest appreciation and his sincere thanks.

The author would be glad to receive in care of his publishers, R. R. Bowker Company, 62 West 45th Street, New York, any corrections of data or suggestions of names to be added.

Daniel Trowbridge Mallett

EARLY AMERICAN SILVERSMITHS

These names, dates and addresses were obtained mostly from the catalogues of auction sales, during the past five years.

The following books are reliable sources of information regarding early American Silversmiths and their marks:

Currier, Ernest M. Marks of early American Silversmiths, London 1938.

Ensko, Stephen G. C. American Silversmiths and their Marks. [two editions] New York 1927 and 1937.

Graham, James, Jr. Early American Silver Marks. New York 1936.

Most of these names may be found in any of the above books.

ADAMS, PYGAN
1712-1776. New London, Conn.
